Inquiry and Research

At East Taieri School we encourage our learners to be inquisitive. Our Inquiry programme allows for children to develop skills and knowledge within a specific framework. Within this framework, children are able to develop learner agency and follow their passions and interests.

Research Questions:

1. What makes a good research question?
2. How do I find and use information to answer my question?

Research Questions:

QUESTIONING

- I can form a research question about a topic

FIND

- I can use a reference book to locate specific information

INTERPRET

- I can read and locate key words and ideas from the information I have gathered

ANSWER

- I can begin to attempt to put the information into my own words to answer a question

Our Inquiry Model...

TREES

- **TUNING IN** – What information do I already know about the topic? What do I want to find out? Define – Ask a BIG question.
- **RESEARCH** – Locate – Identify resources that will help answer the BIG question. Find and sort out information to help answer the BIG question.
- **EXTEND** – Select and Organise – Organise the information that will answer the BIG question. How will it be presented. Can I take my information further?
- **EVALUATE** – Assess – Has the BIG question been answered? Could I have done it differently?
- **SO WHAT?** – Present – Decide the best way to present the information. How will I use this information in the future?
